Recommendation ITU-T D.1101

Enabling environment for voluntary commercial arrangements between telecommunication network operators and OTT providers

Summary

Recommendation ITU-T D.1101 addresses the measures for strengthening the commercial cooperation between over the top (OTT) providers and telecom operators. Given that network operators and OTTs are part of the international telecommunication/information and communication technology (ICT) ecosystem, this Recommendation encourages relevant stakeholders to work towards an enabling regulatory environment that supports and encourages the development of innovative business models in line with the advancement of technology and innovations, which are changing faster than ever.
