Recommendation ITU-T D.300 R (03/95)

Determination of accounting rate shares in telephone relations between countries in Europe and the Mediterranean Basin

The values of the standard accounting rate shares components contained in Recommendation D.300 R were approved in 1984 and are therefore no longer regarded as applicable by the members of the TEUREM Group. Although therefore no longer current, the values are retained in this Recommendation for historic reference purposes only to assist in bilateral negotiations pending a replacement mechanism based on the results of the current Study Group 3 studies.

FOREWORD

The ITU-T (Telecommunication Standardization Sector) is a permanent organ of the International Telecommunication Union (ITU). The ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Conference (WTSC), which meets every four years, establishes the topics for study by the ITU-T Study Groups which, in their turn, produce Recommendations on these topics.

The approval of Recommendations by the Members of the ITU-T is covered by the procedure laid down in WTSC Resolution No. 1 (Helsinki, March 1-12, 1993).

ITU-T Recommendation D.300 R was revised by ITU-T Study Group 3 (1993-1996) and was approved under the WTSC Resolution No. 1 procedure on the 20th of March 1995.

NOTE

In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

INTRODUCTION

When, in full exercise of their sovereignty, the Administrations of the countries of Europe and the Mediterranean Basin negotiate among themselves agreements for determining the accounting rate shares to be applied in their telephone relations, it is recommended that they take into consideration:

- for the determination of accounting rate shares and accounting rates, the provisions of clause 2 (Determination of accounting rate) of this Recommendation and the provisions of Recommendation D.307 R;
- for fixing tariffs for frontier relations, the provisions contained in clause 4 of this Recommendation.
