

Recommendation

ITU-T H.430.8 (06/2024)

SERIES H: Audiovisual and multimedia systems

Infrastructure of audiovisual services – Telepresence,
immersive environments, virtual and extended reality

Functional architecture of interactive immersive services (IIS) systems

ITU-T H-SERIES RECOMMENDATIONS

Audiovisual and multimedia systems

CHARACTERISTICS OF VISUAL TELEPHONE SYSTEMS	H.100-H.199
INFRASTRUCTURE OF AUDIOVISUAL SERVICES	H.200-H.499
General	H.200-H.219
Transmission multiplexing and synchronization	H.220-H.229
Systems aspects	H.230-H.239
Communication procedures	H.240-H.259
Coding of moving video	H.260-H.279
Related systems aspects	H.280-H.299
Systems and terminal equipment for audiovisual services	H.300-H.349
Directory services architecture for audiovisual and multimedia services	H.350-H.359
Quality of service architecture for audiovisual and multimedia services	H.360-H.369
Telepresence, immersive environments, virtual and extended reality	H.420-H.439
Supplementary services for multimedia	H.450-H.499
MOBILITY AND COLLABORATION PROCEDURES	H.500-H.549
VEHICULAR GATEWAYS AND INTELLIGENT TRANSPORTATION SYSTEMS (ITS)	H.550-H.599
BROADBAND, TRIPLE-PLAY AND ADVANCED MULTIMEDIA SERVICES	H.600-H.699
IPTV MULTIMEDIA SERVICES AND APPLICATIONS FOR IPTV	H.700-H.799
E-HEALTH MULTIMEDIA SYSTEMS, SERVICES AND APPLICATIONS	H.800-H.899

For further details, please refer to the list of ITU-T Recommendations.

Recommendation ITU-T H.430.8

Functional architecture of interactive immersive services (IIS) systems

Summary

Recommendation ITU-T H.430.8 identifies the high-level architecture, functions and reference points of interactive immersive services (IIS) systems.

History *

Edition	Recommendation	Approval	Study Group	Unique ID
1.0	ITU-T H.430.8	2024-06-13	16	11.1002/1000/15930

Keywords

High-level architecture, IIS, ILE.

FOREWORD

The International Telecommunication Union (ITU) is the United Nations specialized agency in the field of telecommunications, information and communication technologies (ICTs). The ITU Telecommunication Standardization Sector (ITU-T) is a permanent organ of ITU. ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Assembly (WTSA), which meets every four years, establishes the topics for study by the ITU-T study groups which, in turn, produce Recommendations on these topics.

The approval of ITU-T Recommendations is covered by the procedure laid down in WTSA Resolution 1.

In some areas of information technology which fall within ITU-T's purview, the necessary standards are prepared on a collaborative basis with ISO and IEC.

NOTE

In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

Compliance with this Recommendation is voluntary. However, the Recommendation may contain certain mandatory provisions (to ensure, e.g., interoperability or applicability) and compliance with the Recommendation is achieved when all of these mandatory provisions are met. The words "shall" or some other obligatory language such as "must" and the negative equivalents are used to express requirements. The use of such words does not suggest that compliance with the Recommendation is required of any party.

INTELLECTUAL PROPERTY RIGHTS

ITU draws attention to the possibility that the practice or implementation of this Recommendation may involve the use of a claimed Intellectual Property Right. ITU takes no position concerning the evidence, validity or applicability of claimed Intellectual Property Rights, whether asserted by ITU members or others outside of the Recommendation development process.

As of the date of approval of this Recommendation, ITU had not received notice of intellectual property, protected by patents/software copyrights, which may be required to implement this Recommendation. However, implementers are cautioned that this may not represent the latest information and are therefore strongly urged to consult the appropriate ITU-T databases available via the ITU-T website at <http://www.itu.int/ITU-T/ipr/>.
