FOREWORD

The ITU-T (Telecommunication Standardization Sector) is a permanent organ of the International Telecommunication Union (ITU). The ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Conference (WTSC), which meets every four years, establishes the topics for study by the ITU-T Study Groups which, in their turn, produce Recommendations on these topics.

The approval of Recommendations by the Members of the ITU-T is covered by the procedure laid down in WTSC Resolution No. 1 (Helsinki, March 1-12, 1993).

Corrigendum 1 to ITU-T Recommendation J.81 was prepared by ITU-T Study Group 9 (1993-1996) and was approved by the WTSC (Geneva, 9-18 October 1996).

NOTE

In this Corrigendum, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.
