## ITU-T Recommendation T.563

### TERMINAL CHARACTERISTICS FOR GROUP 4 FACSIMILE APPARATUS

#### AMENDMENT 2

#### ANNEX C

#### T.30 frames for G4 facsimile

### Summary

This Amendment defines the introduction of new optional signals into G4 Facsimile. These signals are SUB (Subaddress), SEP (Selective Polling), PWD (Password), SID (Sender ID), PSA (Polled Subaddress) and FNV (Field Not Valid) defined in Recommendation T.30 as signals of G3 Facsimile.

For introducing these signals, similar optional service as G3 Facsimile can be used on G4 Facsimile in common.

### Source

Amendment 2 to ITU-T Recommendation T.563, was prepared by ITU-T Study Group 8 (1997-2000) and was approved under the WTSC Resolution No. 1 procedure on the 16th of October 1997.

## FOREWORD

ITU (International Telecommunication Union) is the United Nations Specialized Agency in the field of telecommunications. The ITU Telecommunication Standardization Sector (ITU-T) is a permanent organ of the ITU. The ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Conference (WTSC), which meets every four years, establishes the topics for study by the ITU-T Study Groups which, in their turn, produce Recommendations on these topics.

The approval of Recommendations by the Members of the ITU-T is covered by the procedure laid down in WTSC Resolution No. 1.

In some areas of information technology which fall within ITU-T's purview, the necessary standards are prepared on a collaborative basis with ISO and IEC.

## NOTE

In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

## INTELLECTUAL PROPERTY RIGHTS

The ITU draws attention to the possibility that the practice or implementation of this Recommendation may involve the use of a claimed Intellectual Property Right. The ITU takes no position concerning the evidence, validity or applicability of claimed Intellectual Property Rights, whether asserted by ITU members or others outside of the Recommendation development process.

As of the date of approval of this Recommendation, the ITU had not received notice of intellectual property, protected by patents, which may be required to implement this Recommendation. However, implementors are cautioned that this may not represent the latest information and are therefore strongly urged to consult the TSB patent database.
