ITU-T Recommendation U.102

(Previously "CCITT Recommendation")

ITU-T U-SERIES RECOMMENDATIONS
TELEGRAPH SWITCHING

General	U.1-U.10
Specific signalling schemes and interworking between signalling systems	U.11-U.19
Signalling over radio and multiplexed channels	U.20-U.29
Gentex signalling	U.30-U.39
Particular signalling facilities	U.40-U.59
Radiotelex interworking	U.60-U.69
Interworking between new information services and telex	U.70-U.79
Telex store and forward	U.80-U.99
Inter service	U.100-U.139
Definitions	U.140-U.199
The international telex service	U.200-U.299

For further details, please refer to ITU-T List of Recommendations.

FOREWORD

The ITU-T (Telecommunication Standardization Sector) is a permanent organ of the International Telecommunication Union (ITU). The ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Conference (WTSC), which meets every four years, establishes the topics for study by the ITU-T Study Groups which, in their turn, produce Recommendations on these topics.

The approval of Recommendations by the Members of the ITU-T is covered by the procedure laid down in WTSC Resolution No. 1 (Helsinki, March 1-12, 1993).

ITU-T Recommendation U.102 was prepared by ITU-T Study Group 1 (1993-1996) and was approved under the WTSC Resolution No. 1 procedure on the 19th of July 1996.

NOTE

In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.
