ITU-T Recommendation X.256

(Previously “CCITT Recommendation”)

FOREWORD

ITU (International Telecommunication Union) is the United Nations Specialized Agency in the field of telecommunications. The ITU Telecommunication Standardization Sector (ITU-T) is a permanent organ of the ITU. Some 179 member countries, 84 telecom operating entities, 145 scientific and industrial organizations and 38 international organizations participate in ITU-T which is the body which sets world telecommunications standards (Recommendations).

The approval of Recommendations by the Members of ITU-T is covered by the procedure laid down in WTSC Resolution No. 1 (Helsinki, 1993). In addition, the World Telecommunication Standardization Conference (WTSC), which meets every four years, approves Recommendations submitted to it and establishes the study programme for the following period.

In some areas of information technology which fall within ITU-T's purview, the necessary standards are prepared on a collaborative basis with ISO and IEC. The text of ITU-T Recommendation X.256 was approved on 10th of April 1995. The identical text is also published as ISO/IEC International Standard 9576-2.

NOTE

In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

Summary

This Recommendation | International Standard provides the Protocol Implementation Conformance Statement (PICS) proforma for the OSI connectionless Presentation protocol which is specified in Recommendation X.236. The PICS proforma represents, in tabular form, the mandatory and optional elements of the connectionless Presentation protocol. The PICS proforma is used to indicate the features and choices of a particular implementation of the connectionless Presentation protocol.
