JAPANESE INDUSTRIAL STANDARD

J I S

Drain with traps for
equipment units

A 4421-1991

1. Scope

This Japanese Industrial Standard specifies the drain with traps (hereafter referred to as the "traps") used for equipment units (bathroom, draining board for kitchen, etc.) mainly for residence.

Remarks 1. Applicable Standards to this Standard are shown in Attached Table 1.

2. In this Standard the units and numerical values shown in { } are in accordance with traditional units and are for informative reference values.

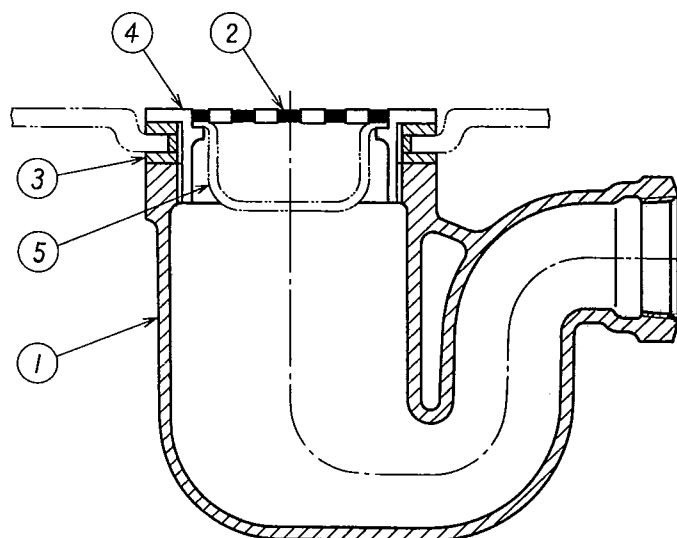

2. Classification

Traps shall be classified into 2 types of type P trap and type bell trap, for bathroom there are traps having basket strainer and without basket strainer and for kitchen sink there are those having and without dirt storing function.

3. Name of each part

The name of each part shall be as follows.

Trap (Example Figure)

No.	Name
1	Body
2	Strainer
3	Packing
4	Strainer receiving metal fitting
5	Basket strainer
