Contents

	Page
1 Scope	1
2 Classification of shapes of corrugated sheets and their symbols	1
3 Pitches and depth of corrugation	1
4 Width of corrugated sheets and width before corrugation	2
5 Standard dimensions	2
5.1 Standard nominal thickness	2
5.2 Standard width	2
5.3 Standard length	2
6 Dimensional tolerances	2
7 Direction of corrugation at both side edges	3

Foreword

This Japanese Industrial Standard has been revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by The Japan Iron and Steel Federation (JISF) with the draft being attached, based on the provision of Article 12, paragraph (1) of the Industrial Standardization Act applicable to the case of revision by the provision of Article 16. Consequently **JIS G 3316:1987** is replaced with this Standard.

This **JIS** document is protected by the Copyright Act.

Attention is drawn to the possibility that some parts of this Standard may conflict with patent rights, published patent application or utility model rights. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying any of such patent rights, published patent application or utility model rights.

NOTE Based on Article 9 of the Supplementary Provisions to the Unfair Competition Prevention Act etc., any submission of proposal, or employment of procedures such as deliberation by the Japanese Industrial Standards Committee under the previous Industrial Standardization Act shall be deemed to have been conducted pursuant to the provision of Article 12, paragraph (1) of the revised Industrial Standardization Act.
