Foreword

This Japanese Industrial Standard has been revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by The Japan Magnesium Association (JMA)/Japanese Standards Association (JSA) with a draft being attached, based on the provision of Article 12, paragraph (1) of the Industrial Standardization Act applied mutatis mutandis pursuant to the provision of Article 16 of the said Act. This edition replaces the previous edition (**JIS H 2222:2006**), which has been technically revised.

This **JIS** document is protected by the Copyright Act.

It should be noted that being in conformance with this Standard may come under the use of the patent rights and other rights held by the following:

Patent number	Title of patent	Patent holder	Expiration date
No. 5709063	Heat-resistant magnesium alloy	Kurimoto, Ltd.	June 19, 2032
No. 6329714	Magnesium alloy	Sumitomo Electric Industries, Ltd., National University Corporation University of Toyama	July 13, 2037
WO2020/054880	Flame retardant magnesium alloy with high toughness	The Japan Magnesium Association, Incorporated company global magnesium corporation, Tobata seisakusho, co., Ltd., Kurimoto, Ltd.	

The holder/holders of this/these patent right/rights and other rights has/have indicated an intention of granting license to anyone under the nondiscriminatory and reasonable conditions, except to the other relevant holders of the patent rights and other rights related to this Standard who will not grant their licenses under the same conditions.

It should be noted that following this Standard does not always refer to granting a free license.

Some parts of this Standard may conflict with patent rights and other rights other than mentioned above. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying any of such patent rights and other rights.

The “patent rights and other rights” as mentioned here include patent right, published patent application or utility model right.
