Foreword

This translation has been made based on the original Japanese Industrial Standard established by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee.

This Standard has been made based on **ISO/ IEC 17050-2:2004 *Conformity assessment—Supplier's declaration of conformity—Part 2: Supporting documentation*** for the purpose of making it easier to compare this Standard with International Standard; to prepare Japanese Industrial Standard conforming with International Standard; and to propose a draft of an International Standard which is based on Japanese Industrial Standard.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

JIS Q 17050 consists of the following parts, under the general title *Conformity assessment—Supplier's declaration of conformity*:

— *Part 1: General requirements*

— *Part 2: Supporting documentation*

Date of Establishment: 2005-07-20
