JAPANESE INDUSTRIAL STANDARD

J I S

Sizes and Dimensions of Fixed Desk  
and Chair for Lecture Room

S 1015-1974  
(Reaffirmed: 1983)

## 1. Scope

This Japanese Industrial Standard specifies the sizes and dimensions of fixed desk and chair for lecture room, hereinafter referred to as the "desk and chair", to be used in universities, colleges, etc.

## 2. Types

The types of the desks and chairs shall be in accordance with Table 1.

Table 1

| Type <sup>(1)</sup> | Remark                                                                                                              |
|---------------------|---------------------------------------------------------------------------------------------------------------------|
| Type A 1            | Dimension of depth of top board: 350 mm min.<br>Dimension in front and rear directions occupied by a person: 850 mm |
| Type A 2            | Dimension of depth of top board: 350 mm min.<br>Dimension in front and rear directions occupied by a person: 800 mm |
| Type B 1            | Dimension of depth of top board: 300 mm min.<br>Dimension in front and rear directions occupied by a person: 800 mm |
| Type B 2            | Dimension of depth of top board: 300 mm min.<br>Dimension in front and rear directions occupied by a person: 750 mm |

Note <sup>(1)</sup> Type A corresponds to studying activities accompanying light desk works.  
Type B corresponds to studying activities mainly for presentation of audio-visual materials.  
Type 1 is that for a larger front to rear distance occupied by a person.  
Type 2 is that for a smaller front to rear distance occupied by a person.
