Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee, as the result of proposal for revision of Japanese Industrial Standard submitted by the Japan Welding Engineering Society (JWES)/the Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14. Consequently **JIS Z 3184 : 1992** is replaced with this Standard.

In this revision, **ISO 6847 : 2000** *Welding consumables—Deposition of a weld metal pad for chemical analysis* is adopted as the basis in order to conform to the International Standard.
