1. Scope of Application

This standard specifies soft vinyl chloride pipe (hereinafter referred to as the "Pipe") for automobiles.

2. Purpose

This standard aims at standardizing the quality requirements for each usage and the major dimensions.

3. Materials and Manufacturing Method

The main raw material of the pipe shall be plastic vinyl chloride or the polymer of which plastic vinyl chloride is a main material. The pipe shall be manufactured by compression method to ensure proper quality for its use.

4. Kind and Color

The types of the pipe shall be classified to 4 kinds distinguished by their colors according to Table 1.

Table 1

Kind	Color	Usage
VT-A	Colorless or black	Water, air and other general piping
VT-B	Red	Fuel oil piping
VT-C	Yellow	Lubricant piping
VT-D	Green	Brake fluid piping

5. Dimension

5.1 The dimensions and their allowable errors shall conform to Table 2. However, the dimensions of VT-A may be other than those specified in Table 2 if agreed by both supplier and buyer.
