1. Scope of Application

This rule shall be applied for car room mirror.

2. Purpose

This rule is to consistently and effectively operate the preceding work, when developing car interior material, by setting the design standard for car room mirror.

3. Definition of Terms

3.1 Room Mirror

It is a rear vision mirror installed on the front middle of room ceiling. It is a device that makes it possible that driver can see back of car without turning his/her head.

3.2 Room Mirror Stay

Part that holds room mirror on the ceiling.

4. Managing Department of Standard

Design Department shall be in charge of management of this standard.

5. Opening / Closing Procedure

The head of design department shall execute opening / closing with approval from related departments.
