1. Scope of Application

This rule applies to whole range of parts which are used in vehicle.

2. Purpose

This rule is purposed to specify numbering rule for vehicle parts' numbers among vehicle-related product indications, to promote effective application.

3. Managing Division of the Rule

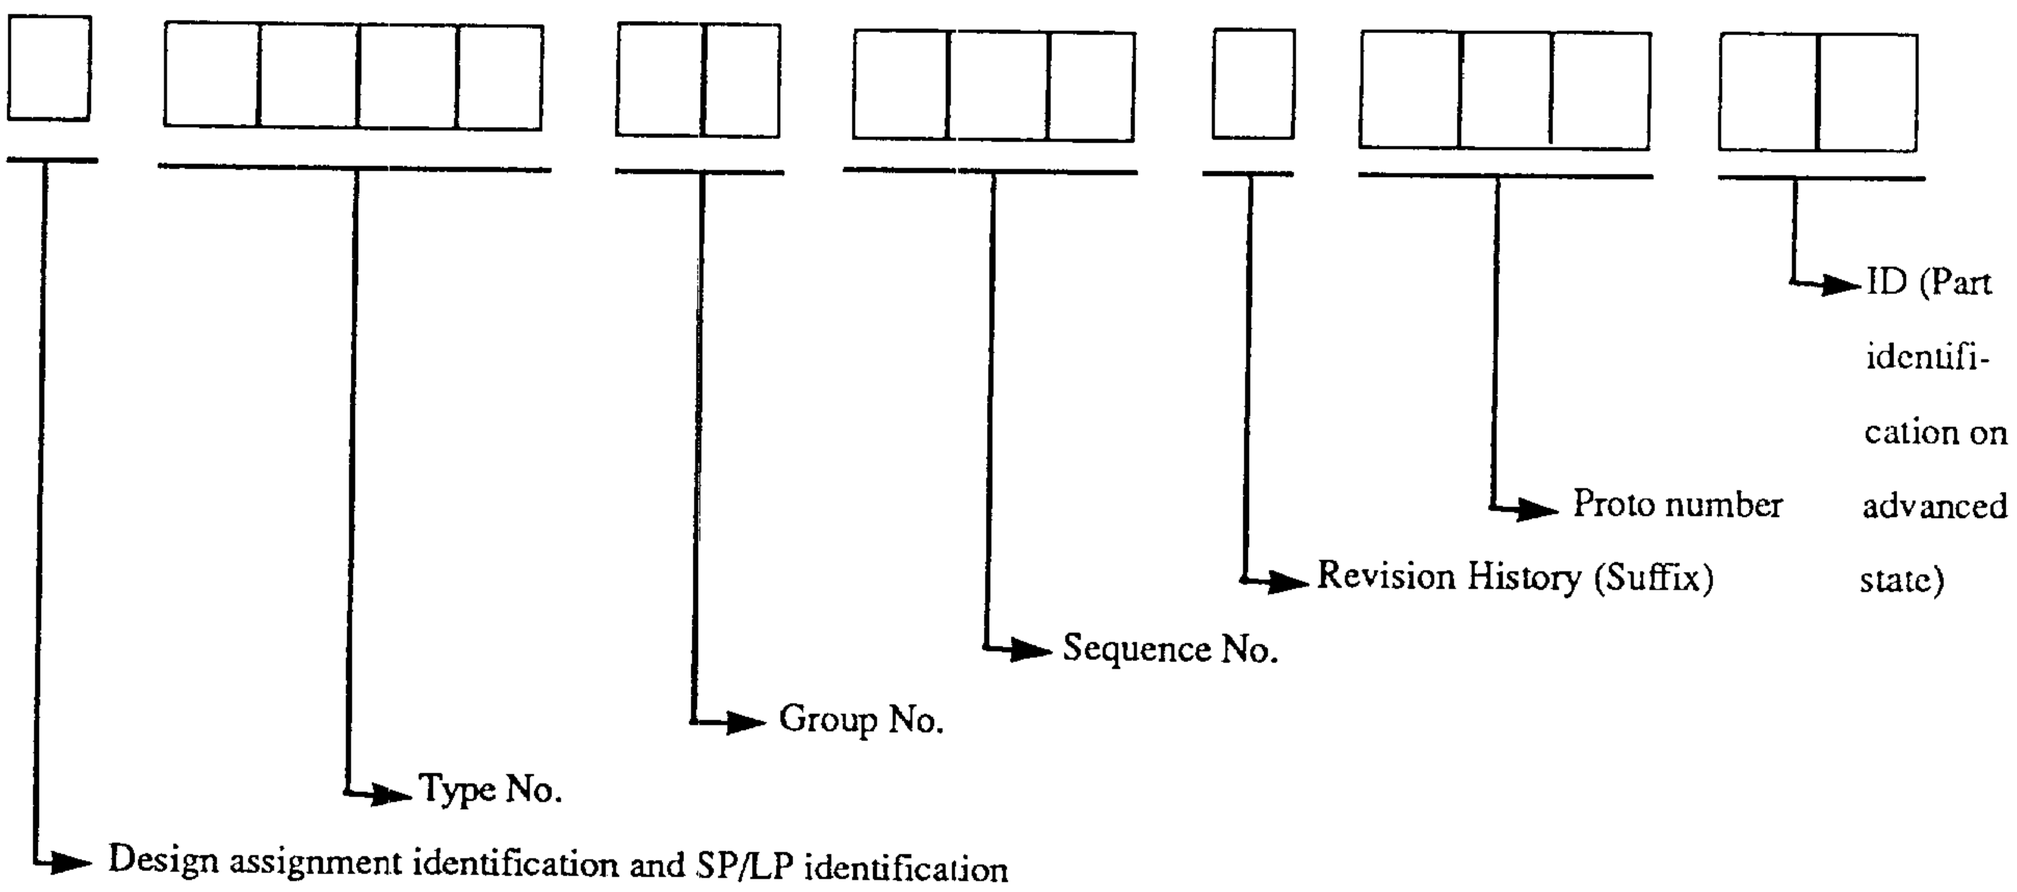
Engineering Management Room is in charge of managing this rule.

4. Procedure for Revision and Abolishion

Engineering Management Room head takes charge of revision and abolishion of this rule.

5. Part Number Numbering Rule

Part Number consists of 7 different codes as shown in below.



Note: 19 places can be used in DB, but 3 out of them shall be left as spares.

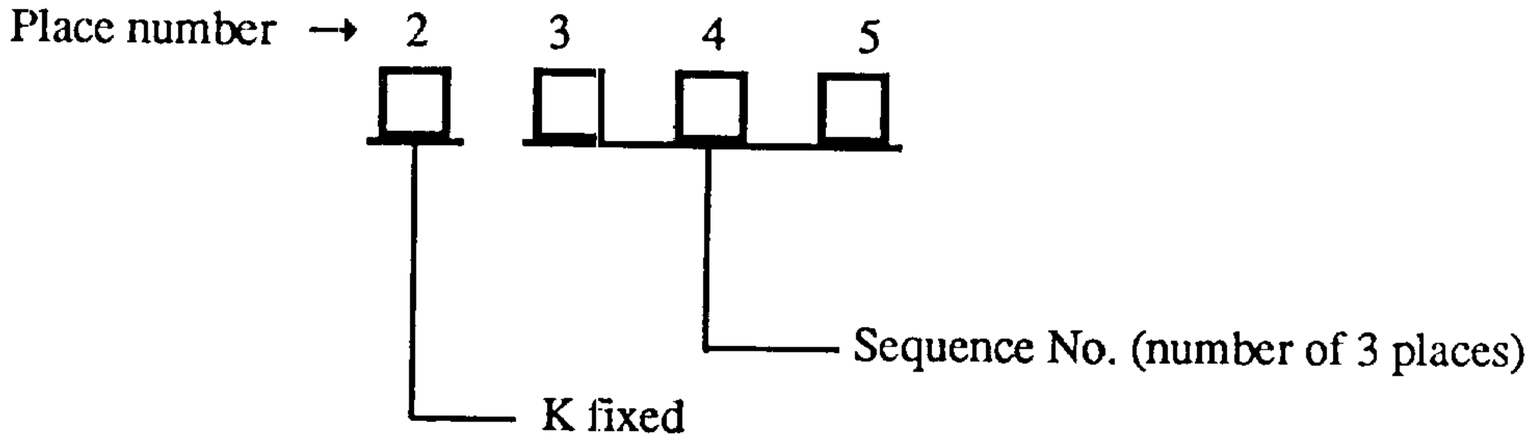
5.1.1 Design assignment identification numbering rule

CODE	Description
K	KIA-designed part (NB - III)
M	MC designed part (NB - III)
H	HINO exclusive use part
O	Other parts than above

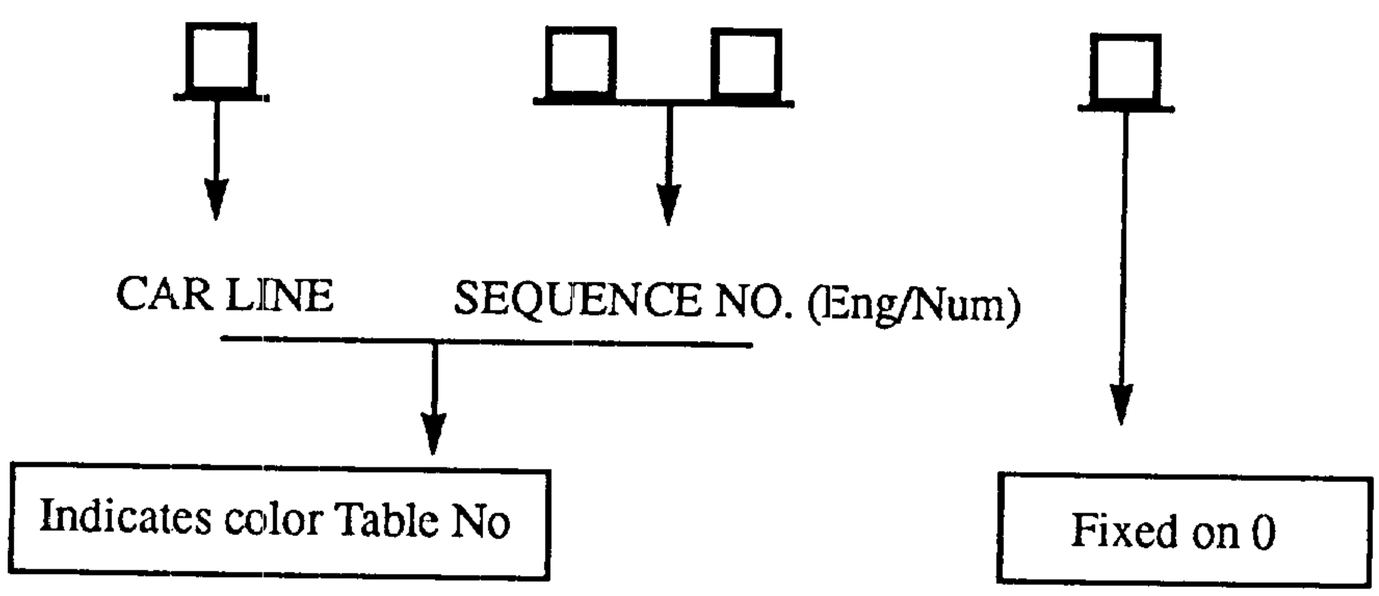
Full document details: KIA KES N-J004 1989

5.1.2 Type number numbering rule

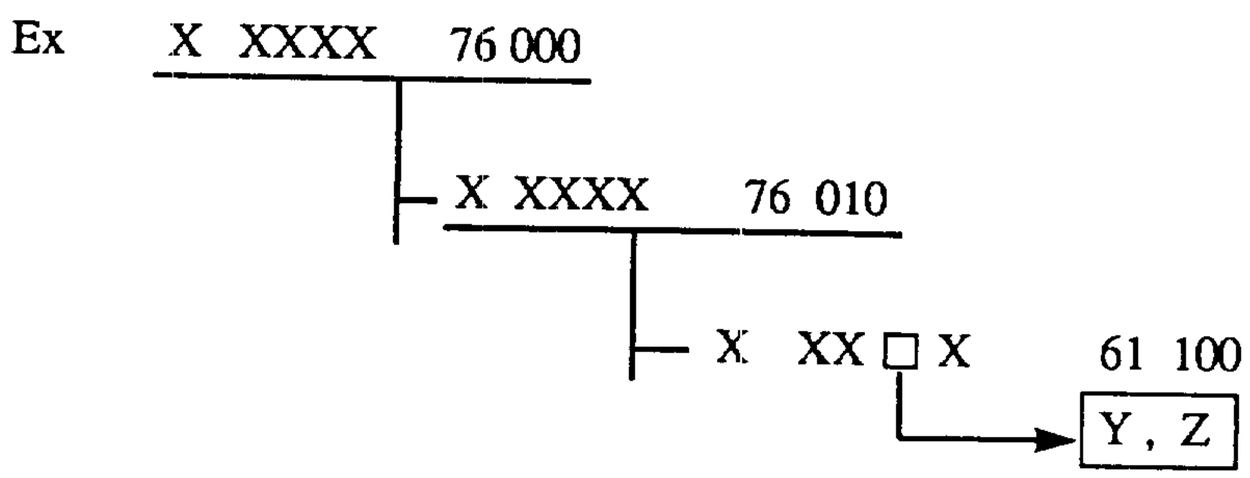
(1) Type number is indicated with 4 places and numbered as shown in below.



(2) As for Color Arrangement Drawing and TOUTCH UP Method drawing it is numbered as shown in below.



(3) As for A/S part and counter plan part, it is numbered as shown in below. Their function number shall be made identical in accordance with standard difference and identified from general parts by recording Y, Z on 4th place of type.



5.1.3 GROUP NO. Numbering rule

Group is indicated with 2 places and numbered according to function (Ex: MISSION), similar parts and treatment.

Numbering is specified as shown in GROUP No. Numbering table in Attached Table 1.
