8. Test Records and Method

1. Scope of Application

This standard applies for the import inspection for addition coal medicine, an addition for content correction, which is used as a subsidiary of casting factory of our company.

2. Inspection Items and Inspection Method

The inspection items and inspection method are as table 1.

Table 1

Inspection items	Inspection method	Remarks
Mesh	Checking Inspection	
Chemical Contents	"	Water, fixed carbon, sulfur

3. Inspection Lot

Consider the all products of one time delivery as 1 inspection lot.

4. Method of Sample Picking

Pick the sample up 10% of lumps from a lot according to KS A 3151(Random sampling method). After picking up 10g from each division, sample 200g and mix it well.

5. Test and Inspection

5.1 Mesh

Follow KS A 5101(Standard screen).

5.2 Chemical Contents Inspection

- (1) Follow KS E 3705(Industrial analysis method for coal kinds)
- (2) Follow KS E 3706(Sulfur analysis method for coal kinds)

6. Making Decision

Those satisfying the conditions on table 2 shall be passed.
