1. Scope of Application

This shall be applied to a bus and truck equipped with and using a caliper assembly.

(However, passenger car and special purpose car shall not be applicable.)

2. Purpose

The purpose of this standard shall be to evaluate the vibration durability of a caliper assembly.

3. Evaluation Standard

- (1) There should be no fracture and crack.
- (2) There should be no omission and cut of parts.
- (3) The release of bolt and nut should be within 20 % of the initial value.
- (4) There should be no oil leakage.

4. Test Equipment
