1. Scope of Application

This standard shall be applied for the vehicles that can be fully flatted and multi purpose vehicles.

2. Purpose

This standard is to evaluate the durability of full flat seat frame.

3. Testing Equipment

(1) A holder that can take the seat.

(2) White body or jig that can take the seat assembly.

(3) Controller and jig for durability

4. Evaluation Standard

There shall not be any seat frame, seat slide, and knuckle, etc., after the test.

5. Test Preparation

(1) Fix it on the holder, taking the seat on white body or jig.

(2) Attach the controller and jig for durability.
