

Safety Standards

of the
Nuclear Safety Standards Commission (KTA)

KTA 3904 (2017-11)

**Control Room, Remote Shutdown Station and Local
Control Stations in Nuclear Power Plants**

(Warte, Notsteuerstelle und örtliche Leitstände in Kernkraftwerken)

The previous version of this safety
standard was issued in 1988-09 and 2007-11

If there is any doubt regarding the information contained in this translation, the German wording shall apply.

KTA SAFETY STANDARD

November
2017

Control Room, Remote Shutdown Station and Local Control Stations in Nuclear Power Plants

KTA 3904

Previous version of this safety standard: 1988-09 (BAnz No. 37a of February 22, 1989)
2007-11 (BAnz. No. 9a of January 17, 2008)

Contents

Basic Principles	5
1 Scope	5
2 Definitions	5
3 Requirements for Main Control Room, Remote Shutdown Station and Local Control Stations.....	5
3.1 General Requirements	5
3.2 Special Requirements	6
4 Main Control Room	6
4.1 Tasks.....	6
4.2 Functional Layout.....	6
4.3 Spatial Arrangement	6
4.4 Interior Equipment / Technical Furnishings	7
4.5 Design Requirements Regarding Failure-Inducing Events as well as External Influences and Events...	7
5 Remote Shutdown Station.....	7
5.1 Tasks.....	7
5.2 General and Technical Furnishings.....	7
5.3 Design Requirements Regarding Failure-Inducing Events and External Events.....	7
6 Local Control Stations	8
6.1 Permissibility	8
6.2 Tasks.....	8
6.3 General and Technical Furnishings.....	8
6.4 Design Requirements Regarding Failure-Inducing Events and External Events.....	8
7 Tests and Maintenance.....	8
7.1 Design Review	8
7.2 Construction and Function Tests.....	8
7.3 Inservice Inspections.....	8
7.4 Maintenance.....	8
Appendix A Ergonomic-Technical Design of the Main Control Room, Remote Shutdown Station and Local Control Stations.....	9
Appendix B Examples for the Staffing of the Main Control Room, the Remote Shutdown Station and the Local Control Stations.....	11
Appendix C Regulations Referred to in this Safety Standard	12
Appendix D Regulations referred to in Section Basic Principles and in the Notes of this Safety Standard.....	13

PLEASE NOTE: Only the original German version of this safety standard represents the joint resolution of the 35-member Nuclear Safety Standards Commission (Kerntechnischer Ausschuss, KTA). The German version was made public in the Federal Gazette (Bundesanzeiger) of February 05, 2018. Copies of the German version may be mail-ordered through the Wolters Kluwer Deutschland GmbH (info@wolterskluwer.de). Downloads of the English translations are available at the KTA website (<http://www.kta-gs.de>).

Comments by the Editor:

Taking into account the meaning and usage of auxiliary verbs in the German language, in this translation the following agreements are effective:

shall	indicates a mandatory requirement,
shall basically	is used in the case of mandatory requirements to which specific exceptions (and only those!) are permitted. It is a requirement of the KTA that these exceptions - other than those in the case of shall normally - are specified in the text of the safety standard,
shall normally	indicates a requirement to which exceptions are allowed. However, exceptions used shall be substantiated during the licensing procedure,
should	indicates a recommendation or an example of good practice,
may	indicates an acceptable or permissible method within the scope of this safety standard.
