	Appendix A – Interfaces & Impact template.....	4

1 Introduction & Purpose

To identify relevant interfaces and provide information on the impact of these interfaces on systems, wider geographical locations, third parties and the environment.

This is used to support compliance with the Construction (Design and Management) Regulations and is used to record certain Health & Safety File information.

The requirement for this is driven by the Construction (Design and Management) Regulations 2007 and must be produced for all projects involving construction.

2 Guidance

2.1 Content

Contents is defined by the template – See Appendix A.

2.2 Quality Criteria

- Addresses all relevant sections outlined in the contents paragraph.
- Provides clear & concise information – the information should not be buried in generic or irrelevant project information.
- Provides references to relevant sections in other documents such as Maintenance/User Manuals where this adds value.
- Contact details provided where relevant.
- Where other assets are or may be affected, include relevant interface information into the [Mandatory Asset Information Deliverables \(MAID\)](#) of the affected assets.
