5.3	Person accountable for the document	7
5.4	Document history	7

1 Purpose

- 1.1 The purpose of this Guidance is to outline the requirements for reporting and managing water ingress faults within London Underground Stations and supplements the information contained in Rule Book 11, section 3.2.

2 Scope

- 2.1 This Guidance applies to all LUL Stations (BCV, JNP and SSL).

3 Management of water ingress

The flow and accompanying text on the following section detail the process for the safe and effective management of water ingress.
