until further notice

Operational Standards Notice No. 108

Effective from 1st April 2012

OPERATIONAL STANDARDS NOTICE

LU Senior Operating Officer role replacing Rostered Duty Officer role

The changes to command and control, effective from 1st April 2012, introduce the role of the LU senior operating officer, which replaces the rostered duty officer.

As a result of this change the following warning box in section 1 of all rule books **General requirements of this book** is no longer applicable:

The rules contained in this book can only be deviated from by a Rostered Duty Officer, who must:

- base this on a real time risk assessment
- keep a written record of the decision and the reasons for it.

The following new warning box is now applicable in its place, and will be added to each rule book when they are next published.

The rules contained in this book can only be deviated from by an LU senior operating officer.

The LU senior operating officer will record a real time risk assessment, which provides adequate controls to mitigate risk.

Where the term 'rostered duty officer' is used within the rule books, these references now apply to the LU senior operating officer.
