Foreword

Publishing information

This National Annex is published by BSI Standards Limited, under licence from The British Standards Institution, and came into effect on 31 May 2025. It was prepared by Subcommittee B/525/6, *Use of masonry*, under the authority of Technical Committee B/525, *Building and civil engineering structures*. A list of organizations represented on these committees can be obtained on request to the committee manager.

Supersession

There is a period of coexistence related to this document, see below (Information about this document) for further details.

This document is the National Annex to BS EN 1996-3:2023.

The National Annex to BS EN 1996-3:2006 will be withdrawn on 30 March 2028.

Relationship with other publications

This National Annex is to be used in conjunction with BS EN 1996-3:2023. It cannot be used by itself.

Information about this document

This National Annex to the EN Eurocode contains the national choices to be used for buildings and civil engineering works constructed in the UK. It also includes complementary information that is non-conflicting with the Eurocode itself.

The first generation of EN Eurocodes will remain current until 30 March 2028 and will then be withdrawn. The second generation of EN Eurocodes will be current upon publication and both sets of documents will co-exist until 30 March 2028.

The first generation of EN Eurocodes was published between 2002 and 2007, with conflicting British Standards withdrawn in 2010. This National Annex forms part of the second generation of EN Eurocodes suite of documents. The second generation of National Annexes to Eurocodes are expected to be published between 2024 and 2026. These documents are being published as soon as they are available. This is being done to enable users to prepare for the transition from the first generation to second generation of EN Eurocodes suite of documents. National Annexes of the first generation of Eurocodes will be withdrawn alongside the first generation of EN Eurocodes by BSI on 30 March 2028.

Where reference is made to a BS EN Eurocode document in this National Annex, it is understood that this includes the relevant National Annex where applicable.

This publication can be withdrawn, revised, partially superseded or superseded. Information regarding the status of this publication can be found in the Standards Catalogue on the BSI website at bsigroup.com/standards, or by contacting the Customer Services team.

Where websites and webpages have been cited, they are provided for ease of reference and are correct at the time of publication. The location of a webpage or website, or its contents, cannot be guaranteed.

Presentational conventions

The verb “shall” expresses a requirement strictly to be followed and from which no deviation is permitted in order to comply with the Eurocodes and the NDP specified in this National Annex.

The verb “should” expresses a highly recommended choice or course of action. Subject to national regulation and/or any relevant contractual provisions, alternative approaches could be used/adopted where technically justified.

The verb “may” expresses a course of action permissible within the limits of the Eurocodes and the NDP specified in this National Annex.
