Technical Guidelines developed by a committee, subcommittee, or ad hoc committee of the Nuclear Information and Records Management Association (NIRMA) represent a consensus of the members of the committee, subcommittee, or ad hoc committee with the concurrence of the NIRMA membership and Board of Directors. Guidelines are recommended procedures for establishment of a program or performance of a task related to the interests of NIRMA members. Guidelines represent the consensus of the sponsoring committee on the best information and method of the subject based upon applicable regulatory requirements, industry standards and practical experience. A lesser amount of detail may be used to identify the areas of interface outside the scope of the document. Guidelines are not intended to be interpreted as industry standards but as suggested guidance with the understanding that companies are not obligated to use the suggested guidance.
