1

GENERAL

1.1

SCOPE

1.1.1

This standard covers the minimum requirements for the design, materials, nameplate marking, testing and shipping of temperature switches.

1.1.2

The related standards referred to herein and mentioned below shall be of the latest editions prior to the date of the purchaser's enquiry.

- ANSI B 2.1 Pipe Threads.
- ANSI B 16.5 Pipe Flanges and Flanged Fittings.
- ANSI B16.20 Ring Joint Gaskets and Grooves for Steel Pipe Flanges.
- IEC International Electrotechnical Commission.
- ISA Instrumentation Society of America.
- CENELEC Comite European de Normalisation Electrotechnique.
- ASTM American Society of Testing and Materials.
- BS British Standards.

1.1.3

In the event of any conflict between this standard, data sheets, codes, etc., vendor should refer the matter to the purchaser for clarifications and only after obtaining the same should proceed with the manufacture of the items in question.

1.1.4

Purchaser's data sheets indicate the material for bulb, well, etc. However this does not absolve the vendor of the responsibility for proper selection of materials for these parts and instrument accessories with respect to the fluid and its operating conditions.
