Implementation

This standard shall be implemented with effect from 3 February 2007.

Compliance

This Network Rail Company Standard is mandatory and must be complied with by Network Rail and specified contractors from 7 April 2007.

When this Company Standard is implemented, it is permissible for all projects, which have formally completed GRIP Level 4, to continue to comply with the Issue of any relevant Network Rail Standards current when GRIP Level 4 was reached and not to comply with requirements contained herein unless the designated Standard Owner has stipulated otherwise in the accompanying Briefing Note.

Where the Standard Owner has specified that all projects will comply with the requirements, specific authority not to comply can be sought by using the appropriate non-compliance authority processes described in Network Rail Standard, NR/SP/STP/045 (Managing the process for non-compliance authority).

Disclaimer

In issuing this document for its stated purpose, Network Rail makes no warranties, express or implied, that compliance with all or any documents it issues is sufficient on its own to ensure safe systems of work or operation. Users are reminded of their own duties under health and safety legislation.

Supply

Copies of documents are available electronically, within Network Rail's organisation. Hard copies of this document will be available to Network Rail employees on request to the Document Controller and to other organisations from Technical Indexes Ltd (01344 404409)
