Notes :

Unless stated otherwise the default periodicity associated with a particular exam code is to be used. The periodicity range is associated with the exam code i.e. it is not a tolerance on the default periodicity.

Proposals for changes to periodicities for particular installations may be made to Asset Management.

The default Ellipse frequency may be reduced to assist with scheduling work. The only way that it can be guaranteed that Ellipse Work Orders will be aligned is for the frequencies to be divisible, for example Monthly = 30, Quarterly = 90, Twice Yearly = 180, Annually = 360
