# WITHDRAWAL Standards Briefing Note

| | |
|---|---|
| **Ref:** NR/L3/AMG/SAF001 | **Issue:** 4 |
| **Title:** Management of Site Visit Safety | |
| **Publication Date:** 03/07/2009 | **Compliance Date:** 03/12/2011 |
| **Standard Owner:** Engineering Programme Manager | |
| **Non-Compliance rep (NRNC):** N/A | |
| **Further information contact:** Stephen Rivers/Dave Allen | **Tel:** 085 53323 or 085 78299 |

**Purpose:** This Network Rail standard describes the activities that aid a risk-based approach to the identification, management and implementation of the necessary safe systems of work to protect people from operational and work related risks.

**Scope:** This standard specifies how members of the Engineering function manage safety when making site visits. A site visit is any activity that is not carried out in an office or similar low-risk environment.

This standard is for use in conjunction with existing processes for Work Activity Risk Assessments as specified in NR/SP/OHS/00112 and the establishment of Safe Systems of Work (SSOW).

Where generic permission is given by managers for regular activities or a series of site visits, the requirements of this standard still apply.

NOTE If managers are in doubt whether this standard applies, guidance can be obtained from the Health & Safety Specialist (Engineering).

**What's New/ What's Changed and Why:** The requirements in this standard are contained in other company standards in place for this activity. -

NR/L2/OHS/019 Safety of People Working on or near the Line

NR/L3/MTC/0216/GA01 Task Risk Control Sheet - Working on or near the Line

NR/L2/OHS/0112 Worksafe Procedure

NR/SP/OHS/00102 Occupational Health and Safety Manual - Work Activity Risk Assessment

The standard will be withdrawn on this basis.
