

Information for users

To access individual modules referenced within this standard, blue active links are provided from the relevant index pages where these are listed. Clicking on a specific reference will lead to the corresponding document. Please ensure to open **bookmarks** for easier navigation within the document and to access **index of modules**.

Alternatively, you may use the search facility to search for a specific document by using the complete document reference number – such as NR/L3/SIG/30082/002 – in the search field.

Issue Record

Issue	Date	Comments
1	December 2010	New standard.
2	June 2011	Updated to reference the issue of Part 5

Compliance

This Network Rail standard includes mandatory requirements that shall be complied with by Network Rail and its contractors from 3rd September 2011 except:

- The national prioritisation system to prioritise Drainage Remediation and Drainage Maintenance is to be developed by 30th June 2011.
- The Initial Survey and condition assessment shall be completed by 31st March 2014.
- The Drainage Asset Register shall be completed by 31st March 2014.
- The prioritised programme for developing Drainage Management Plans shall be issued by 31st March 2014.

When this standard is implemented, it is permissible for all projects that have formally completed GRIP Stage 3 (Option Selection) to continue to comply with the issue of any relevant Network Rail standards current when GRIP Stage 3 was completed and not to comply with requirements contained herein, unless stipulated otherwise in the scope of this standard.
