1.0	June 2008	Updated to reflect stakeholder comments

Compliance

This Network Rail standard is mandatory and shall be complied with by Network Rail and its contractors if applicable from 26 August 2008.

When this standard is implemented, it is permissible for all projects that have formally completed GRIP Stage 4 to continue to comply with the Issue of any relevant Network Rail Standards current when GRIP Stage 4 was reached and not to comply with requirements contained herein, unless the designated Standard Owner has stipulated otherwise in the accompanying Briefing Note.

1 Purpose

This procedure details London North Western's strategy to deliver level 3 and 4 incident support by the OCR team to incidents involving OHL equipment.

2 Scope

The procedure applies to all level 3 and 4, 25kV AC overhead line systems and associated power distribution faults, failures and incidents within the London North Western Route.

Note: In house support may be provided to other routes based on an assessment of business priorities.

SMP applies to:	Infrastructure Maintenance	Operational Property	Overhead Line Condition Renewals	Contractors
