Contents

0.1 Job roles	3
0.2 Risk mitigation	3
1 Plant approval	4
2 Plant design	4
3 Particular requirements	4
3.1 Load lifting points	4
3.2 Mobile elevating work platforms (MEWPs)	5
3.3 Attachment braking systems	5
3.4 Trolleys	6
4 Communication equipment	6
5 Identification of plant	6
Appendix A Example of brake performance testing a new trolley design	7
Table A.1 – Testing ‘first of type’ hand trolleys	8
Table A.2 – Testing ‘first of type’ Ironmen	8

0.1 Job roles

This module is applicable to the following job roles, you must familiarise yourself with all of the clauses contained within it to understand your personal responsibilities:

Machine converter
Machine manufacturer
Plant supplier

0.2 Risk mitigation

This module helps mitigate the following high level risks:

- a) compliance with legislation (LOLER, PUWER, HASAW);
- b) MEWPs becoming out of control, e.g. MEWP operator being crushed under a structure;
- c) overturning, e.g. RRV overturning during lifting operations;
- d) runaway/failure to stop on demand, e.g. OTP running away on a gradient.
