**INSULATORS FOR CONCRETE SLEEPERS
WITH PANDROL SHOULDERS**

Summary

This specification gives the requirements for the material and dimensions of thermoplastic insulators for use with concrete sleepers with 'Pandrol' shoulders.

Issue record

This specification will be updated when necessary by distribution of a complete replacement. Amended or additional parts of revised pages will be marked by a vertical black line in the margin.

Issue: 1 **Date:** April 1995

Comments: Supersedes BR I202

Responsibilities and distribution

This specification shall be complied with by all manufacturers and purchasers of insulators which are for use with Pandrol-fitted concrete sleepers in Railtrack's permanent way.

Users of this specification shall ensure that they use the latest available versions of any documents to which reference is made.

Implementation

The provisions of this specification are mandatory and apply from two months after the issue date shown at the top of this page unless a temporary non-compliance has been authorised by Director Civil Engineering.

Disclaimer

Railtrack PLC has used its best endeavours to ensure that the content, layout and text of this document are accurate, complete and suitable for its stated purpose. It makes no warranties, express or implied, that compliance with the contents of this document shall be sufficient to ensure safe systems of work or operation. Railtrack PLC will not be liable to pay compensation in respect of the content or subsequent use of this document for any purpose other than its stated purpose or for any purpose other than that for which it was prepared except where it can be shown to have acted in bad faith or there has been wilful default.

Supply

Persons requiring controlled copies of this specification shall obtain them from their Directorate's Document Control Point.
