Summary

This document specifies the requirements for inspection and maintenance of trackwork within depots by Depot Facility Operators having Depot Leasing Agreements with Railtrack.

Issue record

This specification will be updated when necessary by distribution of a complete replacement. Amended or additional parts of revised pages from the previous issue are marked by a vertical black line in the margin.

Issue	Date	Comments
1	September 1995	New specification
2	June 1998	References to Railway Group Standards removed, and references to Railtrack Line standards updated; Inclusion of conductor rail and other ancillary track items.
3	December 2000	Reduction in requirement for inspections under certain circumstances

Responsibilities and distribution

This specification shall be complied with by persons responsible (either directly or indirectly) for the maintenance of trackwork within depots which are owned by Railtrack and which are leased to Depot Facility Operators.

Implementation

The provisions of this specification must be incorporated in depot leases at the earliest opportunity.

Disclaimer

Railtrack PLC has used its best endeavours to ensure that the content, layout and text of this document are accurate, complete and suitable for its stated purpose. It makes no warranties, express or implied, that compliance with the contents of this document shall be sufficient to ensure safe systems of work or operation. Railtrack PLC will not be liable to pay compensation in respect of the content or subsequent use of this document for any purpose other than its stated purpose or for any purpose other than that for which it was prepared except where it can be shown to have acted in faith or there has been wilful default.

Supply

Paper copies of this document will be available by printing from electronic copy or, where this is not possible, may be issued on request to the Document Controller.

	Appendix A : Railtrack Line Specifications to be applied to particular items of work	8
	Appendix B : Maximum number of switches, adjustment switches and crossing units to be changed per depot per year as the responsibility of the DFO	8
	Appendix C : Renewal of conductor rail	8

I PURPOSE

To specify the responsibilities for inspection, maintenance and renewal of trackwork at Railtrack-owned depots which are leased to Depot Facility Operators, thereby enabling these responsibilities to be included in lease agreements.

2 SCOPE

This specification applies to trackwork in depots. For the purpose of this specification trackwork shall be as defined in section 3, below.

3 DEFINITIONS

Depot Facility Operator (DFO)

A party to whom a Railtrack-owned depot is leased and who is responsible for its operation and maintenance.
