Safety and Compliance

BRIEFING NOTE

Reference: RT/D/C/004

Issue I

Title: Police, Fire Brigade or Other Emergency Services personnel on or about the Track

Issue Date: 01/07/1996

Compliance Date: [_____]

Standard Owner: Security Specialist

Business Unit Owner: Route Director

Executive Summary

This Code of Practice (CoP) is to be withdrawn and its various procedures and responsibilities transferred to the Control Manual.

Detailed description of the changes

This CoP sets out procedures and responsibilities for Operations Control staff and, to a lesser extent, signallers in respect of Police, Fire Brigade or other Emergency Services Personnel on or about the track. Notwithstanding that the document is a CoP the content is more consistent with either a Standard or a Business Process document. As such it would normally have required to be redesignated. However, with the advent of the Control Manual these procedures and responsibilities are best placed there alongside other procedures applicable to those two groups of staff. Indeed the content of the standard has already been included into Section C13 of the Control Manual. As such the purpose of the standard becomes redundant.

There will be no additional risk as the procedures and responsibilities are mandated within the Control Manual.

Implementation

The provisions of this document shall be applied from 05/02/05

Applicability

The provisions of this document are of relevance to the following functions:

Function	Applicable (please tick relevant boxes)
Contracts & Procurement	
Corporate Change	
Corporate Planning & Regulatory Affairs	
Engineering	
Finance	
Government & Corporate Affairs	
Human Resources	
Information Management	
Legal Services	
Maintenance	
Network Development	
Major Projects & Investment	
Major Projects & Telecoms	
National Delivery Service	
Operations & Customer Services	v
Railway Estates	
Safety & Compliance	v
Strategic Analysis	

Technical Workscope Applicability

Technical Workscope Applicability (Please tick relevant boxes)	Design		Equipment			Construction				
	General	System Design	General	Design	M I & T	General	Equipment Site Inst.	Equipment Site Test	System Comm.	Maintenance
Key: M, I & T = Manufacture, Inspection & Test at Works Comm. = Commissioning Inst. = Installation
