IMPLEMENTATION

This Code of Practice highlights issues arising from operational experience, concerning the repair and servicing of signalling equipment. Where appropriate, it gives current best practice for mitigating risk and is for implementation from June 2003. Alternative practices may be acceptable providing it can be demonstrated that the practices adopted are as good or better, than those defined in this Code of Practice.

DISCLAIMER

Network Rail has used its best endeavours to ensure that the content, layout and text of this document are accurate, complete and suitable for its stated purpose. It makes no warranties, express or implied, that compliance with the contents of this document shall be sufficient to ensure safe systems of work or operation. Network Rail will not be liable to pay compensation in respect of the content or subsequent use of this document for any purpose other than its stated purpose or for any purpose other than that for which it was prepared except where it can be shown to have acted in bad faith or there has been wilful default.

SUPPLY

Copies of documents are available electronically, within Network Rail's organisation. Hard copies of this document will be available to Network Rail staff on request to the Document Controller and to other organisations from Technical Indexes Ltd (01344 404409).
