SUMMARY

This index is part 2 of a 4 part series providing listings of documents relating to Signalling Equipments. Part 2 deals with former BRS SC (Structure) drawings.

The documents listed within the index have the status of Railtrack Line Codes of Practice.

ISSUE RECORD

This catalogue will be updated when necessary by distribution of a complete replacement.

Issue	Date	Comments
1	October 1997	New catalogue
no number	April 1998	Minor corrections
3	August 1999	Reformatted to match other Signalling Catalogues
4	February 2000	Minor corrections

LIMITATIONS

The drawings listed may in some cases not be compliant with the requirements of Railway Group Standards or Legislation brought into force at a date later than the issue date of the drawings. Warnings have been appended to the drawing description where these instances have been identified.

Where a drawing is unsuitable for use on a particular project, that project should arrange to update the original drawing. Authority to update drawings may be obtained on application to Head of Signals Asset Management Group, Railtrack HQ.

DISCLAIMER

Railtrack Plc has used its best endeavours to ensure that the content, layout and text of this document is accurate, complete and suitable for its stated purpose. It makes no warranties, express or implied, that compliance with the contents of this document shall be sufficient to ensure safe systems of work or operation. Railtrack plc will not be liable to pay compensation in respect of the content or subsequent use of this document for any purpose other than its stated purpose or for any purpose other than that for which it was prepared except where it can be shown to have acted in bad faith or there has been wilful default.

SUPPLY

Paper copies of this document will be available by printing from electronic copy or, where this is not possible, may be issued on request to the Document Controller.
