Re: (Reference no. and location)

It is proposed, due to the listed constraints, that the following area of lineside shall be inspected according to the requirements of NR/L2/TRK/5201 *Management of lineside vegetation* following the protocol described below;

Location:		Reference number:	
ELR:			
Mileage start:		Date/time of inspection:	
Mileage end:		Date of last inspection:	
Track ID or Line (Side):			
Grid reference start:		Inspection by:	
Grid reference end:			

Brief description of constraints:	
-----------------------------------	--

Record of decision to alter vegetation inspection method

Revised inspection protocol:
