NSF International Standard/
American National Standard
for Food Equipment —

Food equipment materials

Standard Developer
NSF International

Adopted May 28, 2002
NSF International

Designated as an ANSI Standard
May 28, 2002
American National Standards Institute

Prepared by
The NSF Joint Committee on Food Equipment

Recommended for Adoption by
The NSF Council of Public Health Consultants

Adopted by
The NSF Board of Directors
May 1978

Revised November 1997
Revised May 2002

Published by
NSF International
PO Box 130140, Ann Arbor, Michigan 48113-0140, USA

Disclaimers¹

NSF, in performing its functions in accordance with its objectives, does not assume or undertake to discharge any responsibility of the manufacturer or any other party. The opinions and findings of NSF represent its professional judgment. NSF shall not be responsible to anyone for the use of or reliance upon this Standard by anyone. NSF shall not incur any obligation or liability for damages, including consequential damages, arising out of or in connection with the use, interpretation of, or reliance upon this Standard.

NSF Standards provide basic criteria to promote sanitation and protection of the public health. Provisions for mechanical and electrical safety have not been included in this Standard because governmental agencies or other national standards-setting organizations provide safety requirements.

Participation in NSF Standards development activities by regulatory agency representatives (federal, local, state) shall not constitute their agency's endorsement of NSF or any of its Standards.

Preference is given to the use of performance criteria measurable by examination or testing in NSF Standards development when such performance criteria may reasonably be used in lieu of design, materials, or construction criteria.

The illustrations, if provided, are intended to assist in understanding their adjacent standard requirements. However, the illustrations may not include **all** requirements for a specific product or unit, nor do they show the only method of fabricating such arrangements. Such partial drawings shall not be used to justify improper or incomplete design and construction.

Unless otherwise referenced, the appendices are not considered an integral part of NSF Standards. The appendices are provided as general guidelines to the manufacturer, regulatory agency, user, or certifying organization.

¹ The information contained in this Disclaimer is not part of this American National Standard (ANS) and has not been processed in accordance with ANSI's requirements for an ANS. As such, this Disclaimer may contain material that has not been subjected to public review or a consensus process. In addition, it does not contain requirements necessary for conformance to the Standard.

Foreword	vii
1 General.....	1
1.1 Purpose	1
1.2 Scope	1
1.3 Measurement	1
2 Normative references	1
3 Definitions	2
4 Material formulation.....	2
4.1 General requirements	2
4.2 Requirements for specific types of materials	2
5 General materials requirements	3
5.2 Corrosion resistance	4
6 Coatings	4
6.1 Metallic coatings.....	4
6.2 Organic coatings	4
6.3 Performance requirements for coatings.....	5
7 Surface cleanability	6
7.1 Test method	6
7.2 Acceptance criteria.....	6
8 Corrosion resistance	6
8.1 Test Method	6
8.2 Acceptance criteria.....	6
9 Abrasion resistance.....	7
9.1 Method I (for organic coatings used on food zones).....	7
9.2 Method II (for organic coatings used on splash zones)	7
9.3 Method III (for organic coatings used on serving and display wares).....	7
10 Impact resistance	7
10.1 Method I (for organic coatings used on food zones).....	7
10.2 Method II (for organic coatings used on splash zones, serving and display wares, and specific internal machine surfaces).....	8
10.3 Method III (for specific glass and glass-like coatings)	8
10.4 Method IV (for glass and glass-like coatings intended for direct food contact)	8
11 Heat resistance	8
11.1 Test method	8
11.2 Acceptance criteria.....	8
12 Adhesion ability	9
12.1 Method I (for organic coatings used on food zone surfaces).....	9
12.2 Method II (for organic coatings used on serving and display wares).....	9
