

Corrigendum No. 1 to PAS 1192-2:2013

The text of PAS 1192-2:2013, *Specification for information management for the capital/delivery phase of construction projects using building information modelling* is amended in accordance with Table 1. These changes come into effect from 28 March 2013.

Table 1 – Corrigendum No. 1 to PAS 1192-2:2013

Reference	Corrigendum
Contents	Change Clause 10 heading from "Information Delivery" to "Information delivery"
Figure 2	- Change box under project stage 3 from "Design" to "Definition" - Change box under project stage 4 from "Definition" to "Design"
Figure 7	- Change box marked "Design" to "Definition" - Change box marked "Definition" to "Design"
Figure 14	- Change box under project stage 3 from "Design" to "Definition" - Change box under project stage 4 from "Definition" to "Design"
Figure 20	- Change column 1 heading from "Model name" to "Stage number/Model name" - Change column 2 heading from "Brief" to "1 Brief" - Change column 3 heading from "Concept" to "2 Concept" - Change column 4 heading from "Developed design" to "3 Definition" - Change column 5 heading from "Production" to "4 Design" - Change column 6 heading from "Installation" to "5 Build and commission" - Change column 7 heading from "As constructed" to "6 Handover and closeout" - Change column 8 heading from "In use" to "7 Operation" - Replace text of column 5, row 4 (What the model can be relied upon for), with: "A dimensionally correct and co-ordinated model that can be used to verify compliance with regulatory requirements. The model can be used as the start point for the incorporation of specialist contractor design models and can include information that can be used for fabrication, co-ordination, sequencing and estimating purposes, including the agreement of a target price/guaranteed maximum price"

tinued)

	Corrigendum
	- Replace text of column 6, row 4 (What the model can be relied upon for), sentence 2, with: "The model can be used for sequencing of installation and capture of as-installed information" - Insert the following new paragraph to the end of column 8, row 4 (What the model can be relied upon for): "The full content will be available in the yet to be published PAS 1192-3" - Replace text of column 6, row 5 (Output), with: "Integrated production information. Complete fabrication and manufacturing details, system and element verification, operation and maintenance information Modify to represent as installed model with all associated data references" - Delete the following paragraph from the end of column 1, row 13 (Notes and associated project documents, based on model information): "NMR is building need to add some Civils equivalents" - Insert the following new sentence to the end of Note 1: "If this is likely it is important to effectively manage the programme and deliverables' schedules to ensure continuity of data and deliverables."
Figure 21	- Change box under project stage 3 from "Design" to "Definition" - Change box under project stage 4 from "Definition" to "Design"
Clause 10	Change heading from "Information Delivery" to "Information delivery"
