Foreword

This Publicly Available Specification, PAS 59, was sponsored by Forest Safety Products Ltd and developed through the British Standards Institution.

Acknowledgement is given to the following organizations in the development of this Publicly Available Specification (PAS):

BSI Product Services
BSI Technical Committees B/514 Access and support equipment, B/208
Stairs and walkways
Building Research Establishment
Construction Industry Training Board
Engineering and Design Consultant
Glasgow Caledonian University
Health and Safety Executive
Institution of Structural Engineers
National Access and Scaffolding Confederation
National Federation of Roofing Contractors
Persimmon Homes
Precast Flooring Federation

NOTE 1 Attention is drawn to the following legislation.

The Temporary Work at Heights Regulations 2004 (pending) [1]

The Construction (Health, Safety and Welfare) Regulations (1996) [2].

It is intended that this PAS will form the basis of a product conformity certification scheme to provide assurance that fitted collective fall arrest systems have been independently tested and that the manufacturer's production controls are in accordance with stated requirements.

Product certification. Users of this PAS are advised to consider the desirability of third-party certification of products conforming to this PAS.

This specification is not intended to restrict new developments in design and materials.

NOTE 2 The PAS process enables a specification to be rapidly developed in order to fulfil an immediate need in industry. A PAS may be considered for further development as a British Standard, or constitute part of the UK input into the development of a European or International Standard.

This PAS has been prepared and published by BSI, which retains its ownership and copyright. BSI reserves the right to withdraw or amend this PAS on receipt of authoritative advice that it is appropriate to do so. This PAS will be reviewed at intervals not exceeding two years, and any amendments arising from the reviews will be published as an amended PAS and publicized in *Update Standards*.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

This Publicly Available Specification is not to be regarded as a British Standard.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.
