Acknowledgments

The development of this Publicly Available Specification has been led and sponsored by the **Health & Safety Executive (HSE)**.

The following organizations have co-sponsored and been involved in the development of this Publicly Available specification:

Asbestos Control and abatement Division (ACAD)
Asbestos Removal Contractors Associations (ARCA)
Allpoint Hire Ltd.
Asbestostrip Innovations UK Ltd.
Safety Industries (Oakwood) Ltd.
Thermac (Hire) Ltd.

In addition to the above organizations, representatives of the following individuals and organizations have been involved in the development of this Publicly Available Specification:

Colin Willey, Safety Industries (Oakwood) Ltd
Michael Bowers, Safety Industries (Oakwood) Ltd
Garry Burdett, Health & Safety Laboratory (technical expert)
Health & Safety Laboratory
Philip Stuart
SMH Products Ltd

Foreword

This Publicly Available Specification is one part of a series, which consist of the following titles:

PAS 60-1, *Equipment used in the controlled removal of asbestos-containing materials — Part 1: Controlled wetting of asbestos-containing materials — Specification;*

PAS 60-2, *Equipment used in the controlled removal of asbestos-containing materials — Part 2: Negative Pressure Units — Specification;*

PAS 60-3, *Equipment used in the controlled removal of asbestos-containing materials — Part 3: Operation, cleaning and maintenance of class H vacuum cleaners — Code of practice.*

This Publicly Available Specification has been prepared and published by BSI, which retains its ownership and copyright. BSI reserves the right to withdraw or amend this Publicly Available Specification on receipt of authoritative advice that it is appropriate to do so. This Publicly Available Specification will be reviewed at intervals not exceeding two years, and any amendments arising from the reviews will be published as an amended Publicly Available Specification and publicized in *Update Standards*.

This Publicly Available Specification is not intended to restrict new developments in design and materials.

This Publicly Available Specification does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a Publicly Available Specification does not of itself confer immunity from legal obligations.

In particular, attention is drawn to the following statutory regulations:

- The Asbestos (Licensing) (Amended) Regulations 1983 [1]
- The Control of Asbestos at Work Regulations 2002 [2]
- The Electrical Equipment (Safety) Regulations 1994 [3]
- The Health and Safety at Work etc. Act 1974 [4]
- The Machinery Directive 89/392/EEC (Amended 98/37/EEC) [5]
- The Supply of Machinery (Safety) (Amended) Regulations 1992 [6]
- The Provision and Use of Work Equipment Regulations 1998 [7]

NOTE Auxiliary verbs are used as follows in a specification.

- The auxiliary “shall” is used for requirements.
- The auxiliary “should” is used for recommendations.
- The auxiliary “may” is used to express permissibility.
- The auxiliary “can” is used for statements of possibility and capability.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 9 and a back cover.
