Use of elements of structural fire protection with particular reference to the recommendations given in BS 5588 'Fire precautions in the design and construction of buildings'

Part 1. Guide to fire doors

Utilisation des éléments de protection structurale contre les incendies dans le contexte particulier des recommandations de la BS 5588 'Règles de prévention des incendies dans la conception et la construction des bâtiments'
Partie 1. Guide pour les portes de protection contre l'incendie

Verwendung von Bauteilen für den baulichen Brandschutz unter besonderer Berücksichtigung der Empfehlungen in BS 5588 'Brandschutzmaßnahmen bei Planung und Errichtung von Gebäuden'
Teil 1. Leitfaden für Feuerschutztüren

Foreword

This Part of PD 6512 has been prepared under the direction of the Fire Standards Committee.

This document is intended to explain the logic of the provision of fire doors in relation to precautions against fire, and in particular the provision of fire doors recommended in various Parts of BS 5588.

It is intended for the guidance of those concerned with fire protection in buildings.
