Nanotechnologies — Vocabulary

Part 11: Nanolayer, nanocoating, nanofilm, and related terms

National foreword

This Published Document is the UK implementation of [CEN ISO/TS 80004-11:2020](#). It is identical to [ISO/TS 80004-11:2017](#). It supersedes [PD ISO/TS 80004-11:2017](#), which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee NTI/1, Nanotechnologies.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This Published Document was published under the authority of the Standards Policy and Strategy Committee on 31 July 2017.

Amendments/corrigenda issued since publication

Date	Text affected
30 September 2020	This corrigendum renumbers PD ISO/TS 80004-11:2017 as PD CEN ISO/TS 80004-11:2020

English Version

**Nanotechnologies - Vocabulary - Part 11: Nanolayer,
nanocoating, nanofilm, and related terms (ISO/TS
80004-11:2017)**

Nanotechnologies - Vocabulaire - Partie 11:
Nanocouche, nanorevêtement, nanofilm et
termes associés (ISO/TS 80004-11:2017)

Nanotechnologien - Fachwörterverzeichnis - Teil
11: Nanoschicht, Nanobeschichtung, Nanofilm und
verwandte Begriffe (ISO/TS 80004-11:2017)

This Technical Specification (CEN/TS) was approved by CEN on 10 August 2020 for provisional application.

The period of validity of this CEN/TS is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the CEN/TS can be converted into a European Standard.

CEN members are required to announce the existence of this CEN/TS in the same way as for an EN and to make the CEN/TS available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the CEN/TS) until the final decision about the possible conversion of the CEN/TS into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

The text of ISO/TS 80004-11:2017 has been prepared by Technical Committee ISO/TC 229 "Nanotechnologies" of the International Organization for Standardization (ISO) and has been taken over as CEN ISO/TS 80004-11:2020 by Technical Committee CEN/TC 352 "Nanotechnologies" the secretariat of which is held by AFNOR.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this Technical Specification: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Endorsement notice

The text of ISO/TS 80004-11:2017 has been approved by CEN as CEN ISO/TS 80004-11:2020 without any modification.

Foreword.....		iv
Introduction.....		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
3.1	Basic terms describing coatings, layers, films, freestanding films and membranes.....	1
3.2	Terms describing elements having thickness in the nanoscale (nanocoatings, nanolayers, nanofilms, and related terms)	3
3.2.1	Freestanding elements	3
3.2.2	Elements on substrates.....	3
3.3	Terms describing elements having internal or surface structures in the nanoscale.....	3
Annex A (informative) Alphabetical index		5
Bibliography		7

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see the following URL: www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 229, *Nanotechnologies*, in collaboration with IEC/TC 113, *Nanotechnology for electrotechnical products and systems*.

A list of all parts in the ISO/TS 80004 series can be found on the ISO website.
