

PLASTIC PIPING FOR DISTRIBUTION OF LIQUID PETROLEUM GASES (LPG)

TR-22

2024

Foreword

This technical report was developed and published with the technical help and financial support of the members of the Plastics Pipe Institute (PPI). These members have shown their commitment to developing and improving quality products by assisting standards development organizations in the development of standards, and also by developing design aids and reports to help engineers, code officials, specifying groups, contractors and users.

The purpose of this technical report is to provide important information available to PPI on a particular aspect of polyethylene piping systems for distribution of liquid petroleum gases.

PPI has prepared this technical report as a service to the industry. The information in this report is offered in good faith and believed to be accurate at the time of its preparation, but is offered “as is” without any express or implied warranty, including WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Additional information may be needed in some areas, especially with regard to unusual or special applications. Consult the manufacturer or material supplier for more detailed information. A list of member manufacturers is available on the PPI website. PPI does not endorse the proprietary products or processes of any manufacturer and assumes no responsibility for compliance with applicable laws and regulations.

PPI intends to revise this technical report within 5 years or sooner if required, from the date of its publication, in response to comments and suggestions from users of the document. Please send suggestions of improvements via our website. Information on other publications can be obtained by contacting PPI directly or visiting our website.

This Technical Report, TR-22, was issued in July 1974, and was revised October 1988, August 1998, June 2006, May 2013, and October 30, 2024.

Table of Contents

Foreword.....	2
Table of Contents.....	3
List of Tables	3
1.0 Introduction	4
2.0 LPG Properties.....	4
3.0 Codes & Standards	5
4.0 Effects of Liquid Petroleum on PE.....	5
5.0 Joining & Installation	7
References	9
Codes & Standards.....	9

List of Tables

Table 1: Vapor Pressure of Propane & Butane	4
Table 2: Summary of Stress Rupture Data for PE 2406 Pipe (early vintage Aldyl “A” pipe)	6
Table 3: 73°F Pressure Ratings using 630psi HDB	7
