AIR TURBINE STARTER COMPOSITE OUTLINE DRAWINGS

MARCH 15, 1956

PREPARED BY
COMMITTEE AE-1, JOINT AIRCRAFT ENGINE AND ACCESSORY INSTALLATIONS
and
COMMITTEE A-17, STARTERS

SOCIETY OF AUTOMOTIVE ENGINEERS, INC.
29 West 39th Street New York, N. Y.

Section 7C of the SAE Technical Board rules provides that: "All technical reports, including standards approved and practices recommended are advisory only. Their use by anyone engaged in industry or trade is entirely voluntary. There is no agreement to adhere to any SAE standard or recommended practice, and no commitment to conform to or be guided by any technical report. In formulating and approving technical reports, the Board and its Committees will not investigate or consider patents which may apply to the subject matter. Prospective users of the report are responsible for protecting themselves against liability for infringement of patents."

AIR TURBINE STARTER COMPOSITE OUTLINE DRAWINGS

INTRODUCTION

This document was prepared to provide illustrations of the general shape and size of various air turbine starters currently being manufactured for turbine engines. The starter outlines are intended for general use by engine, aircraft, and equipment manufacturers in ascertaining the space occupied by this type of equipment. In the event that a critical clearance problem is encountered, it is recommended that the specific starter manufacturers be contacted for their latest detail outline drawing of the starter in question.

SOCIETY OF AUTOMOTIVE ENGINEERS, INC.

Committee AE-1, Joint Aircraft Engine and Accessory Installations

H. M. St. John, Chairman
Hamilton Standard Division

V. W. Peterson, Vice-Chairman
Allison Division - GMC

E. J. Bodensieck
Thompson Products, Inc.

K. I. Postel
