AEROSPACE MATERIAL SPECIFICATION

Submitted for recognition as an American National Standard

AMS 3852A

Issued 11-1-48
Revised 1-1-87

Superseding AMS 3852

FLAME RESISTANT PROPERTIES FOR AIRCRAFT MATERIALS

This specification has been declared "NONCURRENT" by the Aerospace Materials Division, SAE. It is recommended that this specification not be specified for new designs.

This cover sheet should be attached to the "A" revision of the subject specification.

This specification has been declared "CANCELLED" by the Aerospace Materials Division, SAE as of April 14, 1986. By this action subject specification number and title will be deleted from the active specification index of Aerospace Material Specifications.

This specification is under the jurisdiction of AMS Committee "C P".

SAE Technical Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

AMS documents are protected under United States and international copyright laws. Reproduction of this document by any means is strictly prohibited without the written consent of the publisher.
