Gary,

For 2016 MY, General Motors will introduce the Chevrolet Malibu Sedan with a 2016 MY LCV engine. This is the same Regular Production Option (RPO) LCV engine previously SAE certified via witness testing for the 2013 MY Chevrolet Malibu. The induction and exhaust restriction levels have been reflected in the attached SAE power rating. The SAE rating was generated from the 2013 MY Malibu LCV via IsoPower per the power and torque plots shown below.

Please also note that this information is being restricted as far as release to the public until after August 15, 2015
