

Component Nomenclature—Scrapers

1. **Scope**—This SAE Standard provides names of major components peculiar to the scraper portion of tractor-scrapers. Reference SAE J1057. Illustrations of components are not intended to be exactly descriptive of any particular machine.
2. **References**
 - 2.1 **Applicable Publication**—The following publication forms a part of this specification to the extent specified herein. Unless otherwise indicated, the latest version of SAE publications shall apply.
 - 2.1.1 SAE PUBLICATION—Available from SAE, 400 Commonwealth Drive, Warrendale, PA 15096-0001.

SAE J1057—Identification Terminology of Earthmoving Machines
3. **Push-Pull Or Dual Load**—A mechanism that allows one tractor-scraper to assist in loading another tractor-scraper by pushing or pulling through engagement devices, which usually include push plates, a hook, and a bail. See Figures 1, 2, and 3 for the different types of scrapers.

SAE Technical Standards Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be reaffirmed, revised, or cancelled. SAE invites your written comments and suggestions.
