AMERICAN NATIONAL STANDARD

ANSI/SCTE 178 2019

Test Method for Cable Weld Integrity

NOTICE

The Society of Cable Telecommunications Engineers (SCTE) / International Society of Broadband Experts (ISBE) Standards and Operational Practices (hereafter called “documents”) are intended to serve the public interest by providing specifications, test methods and procedures that promote uniformity of product, interchangeability, best practices and ultimately the long-term reliability of broadband communications facilities. These documents shall not in any way preclude any member or non-member of SCTE•ISBE from manufacturing or selling products not conforming to such documents, nor shall the existence of such standards preclude their voluntary use by those other than SCTE•ISBE members.

SCTE•ISBE assumes no obligations or liability whatsoever to any party who may adopt the documents. Such adopting party assumes all risks associated with adoption of these documents, and accepts full responsibility for any damage and/or claims arising from the adoption of such documents.

Attention is called to the possibility that implementation of this document may require the use of subject matter covered by patent rights. By publication of this document, no position is taken with respect to the existence or validity of any patent rights in connection therewith. SCTE•ISBE shall not be responsible for identifying patents for which a license may be required or for conducting inquiries into the legal validity or scope of those patents that are brought to its attention.

Patent holders who believe that they hold patents which are essential to the implementation of this document have been requested to provide information about those patents and any related licensing terms and conditions. Any such declarations made before or after publication of this document are available on the SCTE•ISBE web site at <http://www.scte.org>.

Table of Contents

Title	Page Number
NOTICE _____	2
Table of Contents _____	3
1. Introduction _____	5
1.1. Scope _____	5
1.2. Benefits _____	5
1.3. Intended Audience _____	5
1.4. Areas for Further Investigation or to be Added in Future Versions _____	5
2. Normative References _____	5
2.1. SCTE References _____	5
2.2. Standards from Other Organizations _____	5
2.3. Published Materials _____	5
3. Informative References _____	5
3.1. Standards from Other Organizations _____	6
3.2. Published Materials _____	6
4. Compliance Notation _____	6
5. Abbreviations and Definitions _____	6
5.1. Abbreviations _____	6
5.2. Definitions _____	6
6. Equipment _____	6
7. Dye Penetrant Method _____	7
7.1. Sample Preparation _____	7
7.2. Test Procedure _____	7
7.3. Inspection _____	8
8. Photos Of Test Stages _____	8
9. Cone Expansion Test Method _____	9
9.1. Sample Preparation _____	9
9.2. Test Procedure _____	9
10. Expansion Cone Pictures _____	10

List of Figures

Title	Page Number
Figure 1 - Samples Prepared for Testing	8
Figure 2 - Samples with Penetrant Applied	8
Figure 3 - Samples cut in half and with dielectric removed	8
Figure 4 - Samples developer applied	9
Figure 5 - Samples ready for inspection	9
Figure 6 - Mechanical Arbor Press	10
Figure 7 - Core Strip	10
Figure 8 - Cone Expansion	11
Figure 9 - Fifteen percent expansion	11
